## Description :

Prsentation de l'diteur "If you love your stricken one, this is your Bible." said Denzel Koh of Brisbane, Australia after he healed his daughter's cancer using the information in a previous edition of this book. A cancer diagnosis always causes fear. All of us have seen relatives and friends destroyed by conventional cancer treatment. Now, thanks to books like this one and the Internet, you can quickly learn what you need to know. You can heal the cancer using natural, non-toxic substances that work. What you need is a guide to cut through the overwhelming jungle of information. This book provides that guide. The information in it has been refined over eight years using feedback from real cancer survivors about what worked for them. The

author has counseled hundreds of cancer patients by phone and e-mail in 58 countries. At least 1,500 of them have recovered using his information. He is not a medical professional. He is a "reporter" furnishing you with information that consists of "what he would do if he were you or your loved one." His coaching is available to you after you have read this book, if you need it. Bill Henderson has published 105 free newsletters on natural cancer treatment to 8,000 subscribers all over the world, starting in 1999. The information in these newsletters has now been incorporated into this, his third book. The book is up-to-date, specific and accurate. Bill informs you of over 140 web sites and dozens of other books and newsletters you can use to expand your knowledge of natural cancer treatment. The self-treatments he recommends are harmless enough that you can start them immediately, without more research, if you like. They do not interfere with conventional cancer therapy, if that is your choice. In fact, they offset most of the side effects of that treatment. "Cancer is not a disease," says Bill. "It is a reaction to what your body has experienced. Reverse that cause and the cancer goes away. Continue what you did to reverse it and it stays away." Bill explains that there are four common characteristics of all cancers. These have been known since the 1920's: 1. Low oxygen uptake by the cells. 2. A weak immune system. 3. Toxins -- usually caused by diet. 4. Acidity -- again, usually caused by diet. Bill Henderson's recommended regimen tracks with the knowledge for which Otto Warburg, a famous German doctor and researcher, won a Nobel Prize in 1931. He described the cancer cell and stressed the need to reverse the above four characteristics of the cancer in order to heal it. Bill's mission to help cancer patients heal started with his experience with his former wife, Marjorie. Her ovarian cancer was treated with conventional cancer treatment from 1990 to 1994, when she died. Bill is convinced that the treatment killed her. He wants to help as many people as possible avoid her fate. Presentation de l'auteur "If you love your stricken one, this is your Bible." said Denzel Koh of Brisbane, Australia after he healed his daughter's cancer using the information in a previous edition of this book.
