Actual excerpt from the book of how I discovered this great technique. "When I was playing in Germany, I had really bad shoulder pain. The kind that ran down to my fingers and made me unable to put my arms over my head. One night trying to get relief I grabbed my old Motorola and started laying on it, with it digging in under my shoulder. Slowly and excruciatingly I released the rotator cuff muscles and gave myself a pain free range of motion that I had only dreamed of before. Needless to say, I thought I was a genius and upgraded to a tennis ball pretty quickly." Presentation de l'diteur Do you suffer from sore muscles and joints? Recurring injuries and chronic pain?
